Lord Bilimoria, CBE, DL

I am delighted to express my support for the fourth Catering Circle Business Conference 2019 and the Restaurant Star Show Awards. I would also like to extend my sincere congratulations to all of the winners, finalists and participants, and my apologies for being unable to attend.

Catering Circle is undoubtedly a valuable resource for the British-Asian restaurant industry – which employs more than 100,000 people – and is fundamental to promoting and incorporating South Asian cuisine into British culture.

It is estimated that 23 million people – around one-third of the UK population – eat curry regularly. It is thanks to organisations like Catering Circle, that curry takes such a prominent place in British life.

As the founding chairman of the UK-India Business Council, I am enthused by any platform that creates a support network for this industry and infuses British and South Asian culture. But Catering Circle's impact goes far beyond food. The cultural and economic benefits of a thriving curry industry are essential for a prosperous and diverse Britain.

Once again, congratulations to everybody participating this evening and I wish you all every success in helping to improve and promote Asian cuisine nationwide.

Lord Bilimoria CBE DL

The Rt Hon Baroness Uddin

HOUSE OF LORDS

I am delighted to know that The Restaurant Star Show Awards – brought to you by the Catering Circle media platform – celebrate the brilliance and vibrancy of the UK's eating out scene, and reward some of the very best restaurants the country has to offer.

I would like to welcome you all to the 4th Business Conference of the Catering Circle and extend my congratulations to every single one of those being recognised and awarded for their achievements tonight. It also gives me great pleasure to convey my support to the catering circle team for their dedication and hard work to unite the catering industry within the Bangladeshi community in the UK.

Congratulations to Channel S and the Catering Circle team on this marvellous initiative and request that the result of all this good work be directed at the relevant departments to act upon.

Solutions to the Catering Crisis

In 2015, ten national road shows identified the issues affecting the curry industry. In 2016, we produced 12 live talk shows where we found solutions to the catering crisis. And in 2017, we produced a series of 12 live Restaurant Talent Shows to highlight success stories and found twelve winners. In seasons 3, Restaurant Star Show we found one star winner of 12 winners from Season 2.

Tonight we will celebrate these great talents and inspiring restaurateurs and move towards Season 4 of the Catering Circle Live TV Show Series: The Restaurant Talent Show 2019.

Shedding Light on PURELY FUNCTIONAL FOOD

Where a new dish can expand your menu and a new connection can expand your business, Catering Circle acts there as the catalyst on demand.

We are living in a time of unprecedented interest in healthy creative food and wellbeing. Today's food needs to be purely functional: it should sustain us, provide fuel, be safe, and be nutritious. Some of us ask of food that it be delicious, interesting, and pleasurable. Others, that it be authentic, wholesome, and sustainable. On another extreme end, there are those who want frictionless eating experience. Between these cultural tensions, opportunity spaces abound in which a brand can innovate. At this backdrop, taking the initiative of innovation development, the Catering Circle is dedicated to delivering restaurateurs and suppliers with knowledge and information to help drive profitable growth in their business.

After broadcasting a live television talk show series in 2016 that showcased practical solutions to the current curry crisis, in April 2017 it launched *Season 2: The Restaurant Talent Show* on Channel 5 television. The show found 12 winners out of 96 participants and 24 finalists. The winners were invited back in 2018 to compete for the Winner of Winners title. Now in *Season 3* a new form of the reality show was launched to recognise the outstanding creative talents of menu development managers and executive chefs chosen from 12 restaurants of the last Season. The businesses had been tasked with creating new healthy dishes.

A team of mystery diners and judges, with considerable experience of menu operations, marked the dishes that were created by the participants. Selected mentors helped them with advice and guidance. Instead of focussing on celebrity chefs and TV cooks, we've sought out the professionals behind the pass who are breaking a sweat, innovating and pioneering. And this year, for the first time, we're celebrating them officially.

We're thrilled to have such top talents involved in the shows, from seasoned professionals and renowned establishments to many up-and-coming chefs and restaurants. After three successful Seasons with the expansion of the awards in a new look, we can't wait to see what the *Restaurant Talent Show 2019* in *Season 4* will reveal.

Learning, discussions, dishes, demonstrations, experts and trends to invigorate your operation from day one; creative chefs, tastings, attractions, experts and connections to inspire your work for years to come – beyond that is a mix of unexpected happenings and lucrative coincidences that can and will happen when 600 plus restaurant professionals, parliamentarians, dignitaries and media persons get together to shape curry industry for the next few years. One thing is clear, the impact of the Brexit crisis is still being felt today.

The conference and this magazine shed light on where we stand now and, perhaps, where we'll be in just a few short years. Restaurants across the country who are taking part in Catering Circle initiatives to develop the sector and/or watching the live show series on Channel 5 are playing their part to improve their businesses by operating more efficiently. In this, as in so many ways, they inspire other businesses within their communities.

Between these cultural tensions, opportunity spaces abound in which a brand can innovate.

Congratulations to the awardees of Season 3: The Restaurant Star Show. I am all too delighted to have this opportunity of interacting with all of you here tonight and I can assure you that since the beginning of placing this media platform for our culinary leaders, curry operators and different stakeholders of catering success, we've been no less busy pursuing our goals for which you have converged together over the last four years at our shows and annual business conferences.

We have a glorious past in our curry trail in the British soil, which started more than two hundred years ago. British love of curry flew the flag for successful integration. True that now the curry industry is in turmoil. But we can't afford to jeopardise our track of success.

It is inspiring to see the new dishes that were created and the thought and creativity that went into designing and showcasing them. With the community working as a whole and the industry pulling together, we are now making some great steps to tackling the problems head on. As Brexit approaches we must continue to stand together to weather the challenges ahead.

I believe, with our relentless commitment in ensuring a lasting legacy for the curry industry and our quest for solutions to the problems identified, we have an amazing year ahead of us.

Md Abdul Haque
Vice Chairman, Channel S

I welcome you all this evening and am proud to say that this is the 4th year of the Catering Circle initiative. We have had overwhelmingly support from the sector, community and public since our beginning. Our TV audiences have been pulling in over half a million audience reach and this evening we have over 700 people in the catering industry and business leaders in attendance. This event is highly timely as only later this month the UK may exit from the EU and how we navigate Brexit is a question the industry have been desperately asking over the last 4 years with now the reality very much upon us.

On the night of the conference and awards, we reveal three best restaurants in the UK in creating new dishes – as voted for by our academy of chefs, restaurateurs, food writers and culinary experts – as well as present three individual awards, culminating in the unveiling of the Catering Circle Restaurant Star of the Year. The aim of finding the winner and a new dish was to look at ways we could adapt in changing industry and economical times. We wanted to go back to our roots- or the kitchen! By reigniting our creative and culinary skillset again we have been able to prove that we can reinvent ourselves and find dishes that will impress and entice new customers.

We have never given up trying to help the industry through providing live chat shows, discussions and debates and a media platform through Channel S. Let us all group together and maintain our dedication to this industry by supporting our curry houses, the backbone of our community's livelihood to prosper and most importantly survive as we sail into uncharted territories.

Mahee Ferdhaus Jalil
Founder, Channel S

Congratulations to the winner and finalists of tonight and all winners of previous years and to all of the participants who presented such a high standard that it was really difficult to choose the winners, and a heartfelt thank you to all of you who took part. I want to welcome everyone to the Catering Circle's 4th Business Conference and the Restaurant Star Show Awards.

There are, as we all know, huge pressures facing the restaurant industry in the UK. And at the bizarre Brexit scenario, there is a high degree of consensus that the pace of change is likely to quicken, that its exact effects are hard to predict, and that all of us – citizens, the business communities, and government agencies – would do well to engage now to try to ensure that we are in the best place possible to take advantage of the opportunities that will come, and to mitigate the risks that are also coming.

The Catering Circle exists to put consumers first – to try and ensure that the interests of the people who eat food are properly understood and protected, and that citizens are engaged with the issues that affect their food supply and empowered to help shape the industry to meet their needs. We are committed to playing our part effectively, and are looking forward to working in partnership with others in supporting the development of the best food culture possible.

The Catering Circle's live television shows and annual business conferences are our opening contribution to what we believe is an important discussion – we look forward to hearing your contribution.

Taz Choudhury
Managing Director, Channel S

Tonight's Restaurant Star Show Awards is the conclusion of a comprehensive competition we watched in last two years on Channel S.

I sincerely appreciate Catering Circle for its initiatives to create a platform, where all the stakeholders engage for a meaningful solution towards the challenges that the curry industry has been grappling with. At the same time I encourage all concerned to render all necessary support to this industry for its sustenance and further development.

I would like to thank our sponsors and production team of Channel S - without everyone's continued support we simply would not have been able to come this far. We all share a relentless commitment to save the curry industry and I am proud that we are all taking this journey together.

I would like to congratulate all of tonight's award winners, finalists and participants of the creative dish competition and we, from Channel S and Catering Circle team, look forward to continuing to serve our industry with research and insights that will help improve business in 2019 and beyond.

Catering Circle

Catering Circle challenges Status Quo of traditional dishes as the UK prepares to leave EU

The Catering Circle has been on a spectacular journey since its incarnation in 2015 and it feels surreal to think that the date the UK exits the EU will take place later this month. On the one hand, we can anticipate staff shortages, the costs of goods increasing and more competition. On the other hand, there are more opportunities to be sought for trade. As the UK takes control of more of its border, opportunities arise for Britain to do more trade with Commonwealth countries and with non-EU countries. I will be interested to see how the British-Bangladeshi trade relationship develops and how we can work together to solve issues around the migration of non-EU skilled migrants. No doubt, these issues will be discussed in this evening's ever important Brexit panel.

The Catering Circle started off exploring the Curry Crisis up and down the country with national roadshows. We evolved to the point we realised we had to return back to the heart of it all- the kitchen- working *in situ* with the tools of the trade: spices, ingredients, tastes and flavours to come up with a new dish that challenged the traditional dishes we offered on our menus, simultaneously heralding a new healthy dish customers can enjoy.

Thus our aptly titled Season 3 Restaurant Star Show looked at finding exactly this healthy dish under the specifics of Menu

Innovation and Pricing. Participants demonstrated sheer grit and determination to invent and create innovative signature dishes which not only had to be healthy but also had to come in as a plated dish at £14.95 or higher demonstrating a high gross profit (GP). The Catering Circle team travelled to each of the participant's restaurants to watch, understand and record the recipes that had been devised. The team then went onto set a range of gruelling and ambitious tasks to the participants. This involved customers testing the new dishes and giving their feedback and ratings. The Semi Final became even more heated whereby the restaurants had to venture into a college in London and train catering apprentices to see how easy or hard it was to make the dish! Finally for their final task the restaurant had to market the dish to the wider public maximising their PR potential as well as justifying the cost.

We evolved to the point we realised we had to return back to the heart of it all- the kitchen- working in situ with the tools of the trade: spices, ingredients, tastes and flavours to come up with a new dish ...

A lengthy process the restaurants had to jump many hurdles and it is commendable how hard they worked to fulfil their tasks. As Season 3 came to its conclusion, it gave me great satisfaction to see how the younger generation got involved with innovative ideas re-energising our love of the industry and how we were making steps to revitalise it. In total 7 judges- 3 panel judges and 4 special judges participated in a live voting count to find the 'Star Winner' with 2 runner ups. All of whom will be awarded and celebrated tonight.

We all know that the majority of our restaurants are losing money hand over fist and it is only a really small minority that are really successful and able to see a profit from their daily hard work.

Our concept this year has been to reverse the depiction of doom and gloom and celebrate those restaurants that have been successful, hear their stories and through the Catering Circle give them a platform to showcase their talent.

Thus, as a result our attention for Season 4 and our shows in 2019 will turn to Successful Restaurants by launching the Restaurant Talent Show. This will take place on Channel 5 every fortnight. We will celebrate the successful stories through interviews, clips, behind the scenes looks at the venues.

Although our focus will be on cost saving ideas and how to increase revenue- two issues our caterers asked us to look into

as their top priorities, we will also work with the Restaurant talent show to explore the main 12 issues we found during our 'R&D' and national Road Shows. These include menu innovation, healthy options, new concepts, technologies, marketing as well as staffing issues.

To ensure we have offered everyone a fair chance to have their story heard we have also offered an alternative option of being able to showcase their journey via print. For those who are camera shy amongst us we have been able to capture their success story in our first edition of the Success Stories Book that we have published this year. The remarkable stories and journeys the curry houses have to share will no doubt serve as memories for years to come.

The Catering Circle was set up as a dedicated platform to help identify issues within the catering industry and work towards finding remedies. I am proud to say we stand shoulder to shoulder with our curry house owners and fully support them in their fight for survival.

2. Preparation of the sauce

Heat mustard oil to smoking point, then lower the heat and add mustard seeds to crackle, Add sliced fresh garlic and stir. When slightly brown, add the finely chopped onions and peppers. Add julienne ginger soon after and stir for a minute on slow heat. Then add green chilli paste, followed by crushed chilli, turmeric powder and deggimirch

Add some hot water to release flavours from the spices, as well as prevent it from burning. Cook for a further two minutes, or until the oil separates from the spices. Add mango chutney puree and honey

Add fresh diced mango and fresh half lemon juice. Add steamed baby potatoes and steamed baby carrots. Keep stirring and continue to cook for a further two minutes on high heat. Reduce heat and leave for a minute. The sauce is now ready (should take roughly 10 minutes to prepare from scratch) and can be prepared earlier before service if preferred

Finally, the sauce, vegetables and duck are plated and neatly presented, ready to serve.
